November 25th-29th Thanksgiving Break *(PDD)-Professional Duty Day

Royal Palm Mission

To work in partnerships with students, family and the community to ensure that each student acquires the knowledge, skills and core values necessary to achieve personal success and enrich the community.

Mr. Moretti Principal

I would like to take a moment to welcome our new students and their families to our school. Additionally, I believe it is important to acknowledge our returning students and their parents. We are all looking forward to a successful year. The faculty, staff and I are excited about the upcoming school year and we have already been working to create an environment that gives every student the opportunity to be successful. A substantial amount of time will be devoted to ensuring high standards of academic learning which is essential to the development of our students. Royal Palm is proud of the challenging curriculum and caring environment we provide in which our students can learn, and I will work with our staff to build on our past successes. This staff is dedicated to ensuring a safe environment where our students can learn and every person is respected and protected.

Mrs. Wilson Assistant Principal

Welcome to the 2019-20 school year! I am honored to continue to serve you in the Assistant Principal role and look forward to continuing my work with Mr. Moretti, as well as the rest of our staff, in our efforts to do whatever it takes to advance the achievement of all students on our campus. Working together, I am confident that we will continue to provide our students with a truly rigorous and enriching school experience. Royal Palm is a special and unique community of which I am proud to be a part of. I am confident that our school will continue to be a place where our students can learn and grow both academically and socially. Feel free to stop in and say hello, as my door is always open. If there is anything I can assist you with, please let me know.

Classroom News

Elementary

Ms. Fisher and Ms. Porshae Hawkins Kindergarten & 1st grades

We have had a great start to our school year! The students are working hard and making good progress not only on their academic skills, but on their positive behaviors and attitudes with peers. They have been making good choices and certainly enjoy the rewards at the end of the day and the week. Please take time with your child to review his day and any practice work that is being sent home. Please read with your child daily and of course my class is open to any families that would like to visit or volunteer!!

Ms. Brensinger, Ms. P. Hawkins, & Ms. Miller 1st & 2nd grades

Welcome back! Our class has been working on getting to know each other and adjusting to our classroom routine. We began the school year with a “Kindness” academic and social skills unit. We learned about story elements, sequenced story events, and wrote about ways to show kindness in school, at home, and in the community. We are working on being kind to ourselves and others throughout the school day. We have learned that saying “good morning” or smiling at others can brighten someone else’s day and make us feel good about ourselves. I encourage you to try to perform simple acts of kindness as a family and see what a difference it makes in your lives and the lives of others. We believe that family time is important. This month I also encourage you to make reading a part of your family time! Here are some tips for integrating reading into daily family activities: read bedtime stories, play a board game, visit the library, read a recipe and cook together, create a comfy reading space in your home, and put children in charge of reading the grocery list at the store. We are looking forward to a great school year!

Mrs. Batista and Ms. Woodard 2nd grade

Ms. Batista’s and Ms. Woodard’s second grade class has been working hard so far this year. We are excited about phonics and learning to become better readers. Our students work hard to earn their daily points and PAWS; they look forward to visiting the PAW store on Friday to spend their hard earned PAWS. We look forward to continuing to build our skills and appreciate the parent support. With Halloween coming I encourage you to be safe and if interested, Friends of Okeechobee Waterway West is hosting a safe Halloween Trunk or Treat on October 26 from 4:00-6:00pm at the Franklin Locks 1660 S. Franklin Lock Road, Alva, FL 33920.

Ms. Jackson and Ms. Anderson 3rd grade

We are off to a good start; my third graders are learning. We are battling our way through MATH with rounding to the nearest ones, tens, hundreds, subtracting, and adding. We are learning multiplication 2s, 3s, and 4 tables. Let’s not forget READING, and WRITING. It’s all about SCIENCE hands on projects, planting. We are off to SOCIAL STUDIES, knowing the landforms and filling them in. As challenging as it may be, my babies are giving it their all.

Mrs. Eddy, Ms. Davis, and Ms. Thornton Elementary Life Skills

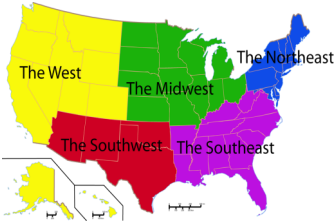

We are so excited that we have a larger classroom to work and learn in this school year! We now have two helping teachers to guide instruction for our class, Mrs. Davis and Mrs. Thornton. Hooray! Our students are adjusting to our school schedule and have been working hard to practice our classroom and school rules. We are also working on bus safety as well to ensure appropriate behaviors are practiced going to and from school.

We complete activities daily to increase our name identification. We journal daily to practice the day of the week, month of the year, the current weather, and identifying feelings, likes, needs, wants, and wishes. We practice spelling words daily to increase our word recognition. We are learning new vocabulary words weekly to increase our comprehension. Our daily read alouds are paired with crafts to demonstrate the meaning of the story. We have been working on counting, identifying less and more, and place value. Please make sure you read with your child daily and ask them about their day. They are very proud of their crafts and are eager to share them with you. Thank you for your continued support!

Mrs. Barnes, Ms. Tindal, & Ms. Hayes 3rd grade

Summer vacation is over, and we’re back in full academic gear! We are diligently working on academic learning gains and appropriate class behaviors. Language has focused on story elements, literal and non-literal words and phrases, Myths, Tall Tales, conventions and other strategies to improve the student’s ability to process, and comprehend information. In Math, we have learned key terminology in addition/subtraction, rounding numbers to (ten/hundred), and beginning multiplication concepts using visual arrays and equal groups. Social Studies involve learning about the five regions of the United States and their various landforms and map skills. Our Social Skill’s character word for the month is acceptance.

Through various videos, class scenarios, and discussions, we have learned a lot about acceptance and the importance of employing this trait in building good character. Lastly, Science is all about plants and animals and how we classify each group. More News!! In addition to academics and Behaviors, we are also looking forward to participating in other events. Remember to set aside a time daily after school, (15 – 20 minutes) to read to your child or have your child read to you! Also, ensure your child is getting proper sleep at night as it promotes academic growth and development.

Mr. Brown and Ms. Fetting 4th grade

Welcome back! To help your child become a better reader, read with them every day for at least 10 minutes. You can read to your children or have them read to you at any point of time that is convenient for you. Expose your children to both fiction (make believe) and non-fiction (real) books. Some examples of non-fiction would be historical books or news articles, and some examples of fiction would be Captain Underpants or Dog Man. Students should also do 20 minutes of Compass Learn and Prodigy every day. A “learning path” is automatically generated based on your child’s reading ability. They have access to this at home as well (compass.leeschools.net) and (Prodigygame.com). Another great online resource is FloridaStudents.org. There are fun learning “games” available for students of all grades! I look forwards to a great year of learning with your students

Ms. Perl and Ms. Walker 4th grade

I am pleased to announce my new helping teacher, Ms. Walker, who will be assisting me and working with our pupils in various ways. Our students have shown a lot of excitement and interest in their school work since the beginning of this academic year. In math, we have been working on place value, rounding numbers, and reviewing multiplication facts. The class has also been learning about the geography of Florida, increasing their vocabulary by using a dictionary, weekly spelling tests, practice reading orally as well as identifying and using the four types of sentences. The students are enjoying our current science unit on flower and plant reproduction which also includes follow up interesting review videos. Please have your child read every day for at least fifteen minutes. Recently, our character education theme was teaching the students how to be more responsible in their personal and school life. I know this year the class will continue to work on their individual educational and socialization goals.

Mr. Belchler and Ms. Schley 4th grade

Welcome back. I have just joined the wonderful team at Royal Palms. My fourth grade class conducted a science experiment in growing green bean plants. A plan was proposed and approved to create a school garden and several elementary teachers have expressed interest in participating. We are currently formulating plans to construct the garden. I feel that this experience will benefit all students in learning how to grow and care for vegetables. We are excited about implementing Read 44, a computer based reading improvement program that should help our students who struggle to read improve their reading skills dramatically. I’m looking forward to a great year.

Mrs. Richardson and Ms. Howell 5th grade

This year our all-star line-up has touched down on place value, exponents, adding and subtracting decimals, and building multiplication skills. We have learned the elements of a story: characters, setting, events and theme, figurative language: metaphors, similes, idiom, adages and proverbs. Our team has traveled in our minds across the US, using maps, and into the human body with lessons on organs and human body systems. Our social skills lessons have been on safety, peer pressure, bullying and taking care of our

Classroom News

Secondary

Mr. Eady and Ms. Farmer **3rd, 4th & 6th grades**

I would like to welcome the students to my classroom. This year’s focus will be on behavior and academics. I truly believe that if the students can maintain appropriate behaviors then they will see academic improvements. Mr. Eady and Ms. Famer

Mr. Murph and Ms. Harris **5th & 6th grades**

Welcome Back Students and Staff!! I am so delighted to join the Royal Palm Family as a 5th & 6th grade teacher this school year. This school year is going to be a great one, full of hands on activities. Parents, the more your child reads, the more knowledge they will obtain. Ms. Harris and I are looking forward to having a rewarding school year. We are truly thrilled to educate your child. I am always available to talk to. Together, we will make a wonderful team to bring out the best in your child. This year will be filled with developing great relationships and a love of education.

Mrs. Kiesinger-Morales and Ms. Candelaro **6th-8th Math**

Dear Students, Parents, and Families, Wow, what a great start to this new school year! I have really enjoyed working with my math students and getting to know them! My teacher assistant Mrs. Candelaro (Mrs. C.), is absolutely amazing, and works so well with our students! Mrs. C., is without a doubt, my “backbone” in this classroom. In 6th grade were are learning all about integers and their absolute values, In 7th grade we are learning how to add and subtract linear expressions, and in 8th grade we are learning how to graph the slope of a line.

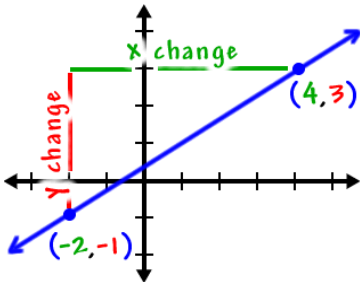

All homework can be found on our Google Classroom. Students are responsible for frequently checking our Google Classroom to see what homework and class-work assignments have been posted. The students all know how to access their Google Classroom. If you do not have online access, students are able to complete these assignments, at designated times, during the school day. If your child does not complete their homework and/or classwork assignments, their grades will significantly drop. Please encourage and remind your child of this process. I am thankful to have the privilege of working with and getting to know your child. If you have any questions or concerns, the best way to reach me is by email, suzannemm@leeschools.net .

Sincerely , Mrs. Kiesinger-Morales & Ms. C.

Ms. Kunze and Mr. Buckley **6th-8th Social Studies**

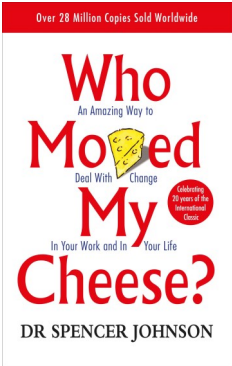

Wow, summer flew by and here we are again at the beginning of a new school year. Welcome students and families to a year that will be exciting and full of new experiences. The 6th graders will be studying Ancient World History and learning how cultures began and spread. This is an important year for the seventh graders. In May they will take the 7th grade End of year exam which is all about American History and government.

We will work all year learning about the origins & purposes of government, law, and the American political system. The 8th graders will be studying American History from the beginning to the Civil War. We have begun with learning the relationships between the British, French, Spanish, and Dutch in their struggle for colonization of North America. Students will study the ways that economic, political, cultural, and religious competition between the Atlantic powers shaped early colonial America. Ask your child questions and talk about your culture and heritage. These conversations will help them understand what we are learning and why. As always if you have any questions or concerns please do not hesitate to contact me so we can stay on the same page and help the students have a successful year.

Mr. Weigand and Ms. Robinson **6th-8th Language Arts**

The 2019/2020 School Year is off to a great start in middle school language arts. We started off by going over rules and expectations, and by examining the difference between can't and won't. Students watched the ESPY presentation given to Coach Ronald Mendez. From that we developed a theme that is posted around the classroom which states "Who Says I Can't?" We are reading Spencer Johnson's book Who Moved my Cheese which focuses on life changes. We have discussed the elements of a paragraph and why organization is important. Students have also gotten books from the media center for our weekly Drop Everything and Read sessions to be held each Tuesday. We are also reading from a daily affirmations book which requires students to interpret what each affirmation means for them. As the quarter progresses we will continue to work on writing mechanics, verb tenses, and self-editing. Mrs. Robinson and I are very excited about this school year based upon the great effort we have seen from our students thus far.

Ms. Brown and Ms. McMillian **6th-8th Science**

Dear Students, Parents, and Families, Welcome Back! It has been a very exciting beginning of the school year! I have really enjoyed working with my students and getting to know them this year! In class, your student is responsible for completing their own interactive science notebook with labs, vocabulary and worksheet homework, and their workbook lessons. There are also some very important things you can do to help your child succeed in science. These things include: watching science-based tv shows, find resources, and cooking with your child. I am thankful to have the privilege of working and getting to know your child.

Ms. Baez and Ms. Briscoe **6th-8th Reading**

Dear Students, Parents, and Families, welcome back to a new and exciting school year! I have really enjoyed working with my reading students and getting to know them! During this school year we will continue to work on Language Live our reading program, learning how to identify the author’s purpose to better understand the text, answer comprehension questions and key vocabulary words.

This year all homework is to be completed at home or in the classroom. Students are responsible for completing 4 assignments weekly, online and book work. The students all know how to access this website. If the students do not complete their class work, their grades will significantly drop. Please encourage and remind your child of this process.

Mr. Carr and Ms. Tivis **8th-12th Critical Thinking & Careers**

Greeting Royal Palm families. Part of our critical thinking class will be focused on understanding the logical structures of the different types of arguments—for instance, arguments that involve statistical generalizations or ones where we reason to the best explanation-- that we frequently employ in the course of everyday life. We will cover common missteps that people often make in everyday reasoning, including missteps that people make in making judgments based on probability, so that you will be able to better recognize these when you see them and to avoid making them yourselves. We will look at some principles of probability and how these might be used in making good judgments in situations of uncertainty where risks need to be calculated as best as possible. Like I said, this is just part of what we will be learning. I will keep you updated throughout this school year as we move into new critical thinking aspects.

Classroom News

Secondary

Dr. Moore, Ms. Thornton & Mss. Jerger **9th-12th Life Skills**

Our first quarter is off to a great start. It was nice to see all the parents and grandparents at the open house. Our class is getting so much better at learning their spelling words and composing sentences. Improvement can be noticed every week. We are also exploring possible jobs. Our ExTRA student volunteer program began September 11. This program gives the opportunity to eligible students to go out in the community and work alongside employees of businesses that have partnered with this program. For more information regarding this program, please contact me. I hope that we continue to learn and try our best!

Mr. Krachenfels and Ms. Jackson **8th-12th Science**

High school science would like to welcome students and their parents/guardians back to the 2019 -2020 school year here at Royal Palm Exceptional. As we head into this school year, we would like for you as parents to please take a moment to reflect on the influence that you as parents have on our students and how important you are to their educations. We in high school science also welcome any input that you as parents/guardians may have regarding your child's education. THANK YOU!! This Fall, our 8th,9th,10th,11th, and 12th grade students will launch into the Next Generation Sunshine State Standards for Science in the subjects of Physical, Environmental, and Biological sciences. Additionally, our students will be using evidence-based reasoning to demonstrate their understanding of the scientific concepts covered in class. We in high school science are also confident that students will achieve an outstanding level of success in these courses. The Physical Science concepts that we will be covering in class this year are: Laboratory Safety, Energy, Energy Conservation, Wave Properties and their Interactions, and the Electromagnetic Spectrum.

Next in the Environmental Science courses the concepts that we will be

covering in class this year are: Laboratory Safety, Science and the Environment, Tools for Environmental Science, Ecosystems, and Biomes. Lastly, the Biological Science concepts that we will be covering in class this year are: Laboratory Safety, Properties of Water, Macromolecules, Enzymes, Cell Theory, and Cell Structure & Function.

Mr. Jensen, Ms. Robinson, Ms. Delva, & Ms. Hernández **8th-12th Life Skills**

Welcome! The 2019-2020 school year is in full swing, and we are moving at full throttle. This year could have not started any better. The students are great, and the staff is spectacular! Everyone is performing at a high level and I am very excited. Parents please feel free to get in contact with Ms. Robinson or myself with any questions or concerns you may have. We have started fast and we only plan on getting better as we get deeper into the school year.

Ms. Rosier and Ms. Lader **Credit Retrieval**

Music may increase your brain power. Research has revealed that music stimulates all areas of the brain. Music is a multi-sensory experience, involving the auditory, visual, and tactile senses. As a result, music can have a direct impact on an individual's physical, emotional, and cognitive functioning. So, whenever you feel that you need to increase or recharge your brain power energy for studying or even relaxing, just turn on your favorite tune and let the music work its magic. If you are interested in learning more about music's impact on learning and brain functioning you can visit www.knowingneurons.com.

Ms. Strykiewicz and Mr. Greene **8-12 English**

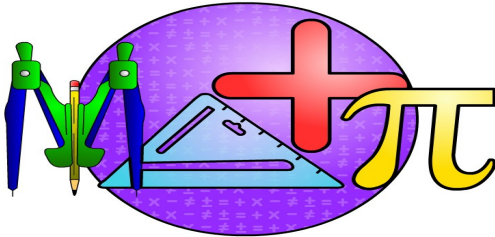

We are off to a good start for another year at Royal Palm! I am looking forward to working with students as they sharpen their writing and reading skills. Each day students explore an advanced vocabulary word that they encounter in a reading in the subsequent days. They also are working hard on using correct grammar and punctuation when they write. At home students should be reading for 15 minutes at least 3 times a week. This can be from a book, magazine, or even a comic book. As your child reads, they not only strengthen their reading skills but their writing skills as well.

Ms. Senat, Ms. Jackson, & Ms. Vandeveld **9th-12th Life Skills**

Welcome back! Life Skills is Falling for you! Parents one way to help your child become more independent is to have them complete one chore per day. It could be taking out the trash, putting dishes in the cabinet, or simply making their bed every morning. Setting a routine will help your student grow. From all of us to you, happy Fall.

Mr. Kovacs and Ms. Blue **8th-12th Math**

Welcome back. I hope you enjoyed your summer break. We are already more than half way through the first quarter. Math is an important subject. It teaches you to think logically, categorize things, and see how things are related which will help you succeed in anything you do. This is a common goal no matter which math class you're in. I am looking forward to a successful academic year for my students'. Please students remember, if you do not understand something or have a question, please just ask me.

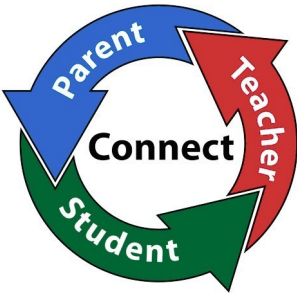

Ms. Alexandre and Ms. Sneed **8th-12th Social Studies**

Hooray, Fall is here! Hello parents, it's really a pleasure to write this note to remind you how happy I am to be your child's teacher and also a part of this learning community. Our students will be learning a lot during this school year about social studies and social issues regarding our community and our country as a whole. In the social studies class, our students are learning a great deal about world history, and what made the world the way it is today, and how cultures evolve over the life span. They are learning about our own culture, and what makes it diversify over the years. They are also learning about how to appreciate our diversity and learn to treasure our country and our democracy. I can go on and on, but my aim is to remind you as parents the importance of keeping your student proactive in learning during this school. You can select some books that the district recommends for children to read or you can try to reach our public library, which offers excellent programs for the children. It has been a pleasure to have you trusting me with your child's education and I hope to do this again, for the next coming years.

Yours in education, Ms. Alexandre

Ms. Gilmore **8th-12th Reading**

Dear Parents, welcome back to school! I hope you enjoyed your summer break. My name is Ms. Gilmore and I will be your child's Reading teacher. I am looking forward to a productive partnership with you and your family to ensure our children can achieve their highest potentials. I want you to know that one of my most important goals this year is to keep the lines of communication open with you. Success in school is predicated on a partnership between the school, home, and the student. Please don't hesitate to contact me at (239) 337-3511 or latoyag@leeschools.net if you have any questions or concerns during the year. I am available every day to talk with you between 7:00 a.m. and 8 a.m. and between 1:30 p.m. and 2:30 p.m. I look forward to speaking with you soon!

Mr. Mike Bursztyn **Title 1 Parent Involvement and Family Engagement**

Royal Palm Exceptional Center School is one of 45 Title 1 Schools in Lee County. As a result, it receives additional funds for the purpose of improving student academic and behavioral achievement via teacher training, hiring additional staff (helping teachers, social worker, parent involvement teacher), purchasing instructional materials and supplies, offering parent workshops and parenting materials/ resources, and supporting and increasing parent and family involvement. Like all Title 1 schools, Royal Palm has a Parent and Family Engagement Plan (PFEPlan). Our 2019-2020 Royal Palm plan was discussed and reviewed at our Annual Title 1 Meeting/SAC Meeting on September 12th. It will also be discussed and reviewed a second time during the Annual Title 1 Meeting and Parent Workshop to be held at 8:00 AM on September 26th. During these meetings, SAC members and parents provide input in the areas of defining activities that build capacity for strong parental involvement, staff training, and discretionary activities that relate to student achievement. Throughout the 2019-2020 school year we will have numerous school activities and workshops that you should attend. These include the parent workshop on September 26th at 8:00 AM - "Increasing Your Child's Achievement Through Home-School Collaboration". Donna Djerf, District ESE Department Parent Liaison will present this workshop, so please join us. The more you are involved, the more your child will succeed, so let's work together to achieve positive academic, social and behavioral outcomes for all students at Royal Palm School. Throughout the year we will bring speakers to the school to work with parents on how understanding the IEP, behavior management, supporting math and reading in the home, home-to-school collaboration, social skills, and online safety can improve their child's academic progress and success. If you have any questions, need assistance, or would like to volunteer at the school please do not hesitate to contact me, Ms. Vanessa Castro (School Social Worker) or Mr. Colin Kleinmann (School Counselor). Thanks.

Thanksgiving Luncheon for Parents – On Thursday November 21st all parents/guardians are invited to enjoy a holiday meal with their child. The Thanksgiving meal will be served at your child's regularly scheduled lunch time. This will include turkey, stuffing, mashed potatoes, gravy, green beans, dinner roll, drink, and dessert. The cost of the parent lunch is \$3.75 and may be paid

A photograph showing a woman with long brown hair and sunglasses on her head, smiling. She is sitting at a table with two children. The child on the left is a boy wearing a blue shirt and a paper crown, holding a juice box. The child on the right is a girl wearing an orange shirt. On the table is a plate of food, including turkey, stuffing, and vegetables, along with a juice box. The background shows a school cafeteria with other students and tables.

via cash or a check payable to Royal Palm Exceptional School. Please be on the lookout for a flyer that will be sent home with your child. The form and payment should be returned to the school by November 8th . Thank you.

Mr. Kleinmann **School Counselor**

Welcome to the 2019-2020 school year. I am Royal Palm's new School Counselor, Mr. Colin Kleinmann. The year is already off to a great start – I'm getting to know so many of the students! Students have been engaged in class presentations on how to earn high school and middle school credits with a good GPA. Even students who've missed credits are earning them back on Edgenuity. Parents are welcome to schedule a conference to review their child's academic history. During every quarter, students will review how grades average together and can impact credits earned. We offer every possible chance for students to earn their credits to be promoted from 8th to 9th grade, or reach their High School Diploma. Keep in mind that attendance and effort is extremely important. If emotional problems are creating an obstacle, parents and guardians may reach out to me for referrals to Outpatient Therapy at SalusCare. It's great to see students growing and reaching their individual highest potential!

Mrs. Stephens

So much is happening with Royal Palm's Art classes! Congratulations to our 6th grade student, who was selected as the 2nd place winner in Lee Tran's 2019 Get on Board Drawing contest! Her design helped raise awareness of the benefits of public transportation. Fifth grade students in Mr. Murph's and Ms. Richardson's classes are working on Lee County Tag Art; creating designs for front-end license plates, key fobs, mugs and more that can be purchased by friends and family. Good luck kids! We have 2 life skills high school students participating in our Art classes where we have been creating abstract and realistic art, mixing colors and participating in many choice Art activities.

Mrs. Meltzer & Ms. Cruzado

Welcome back! To help your child become a better reader, read with them every day for at least 15 minutes. That could be you reading to them, or listening to them read to you (even when you're in the car). Expose your children to both fiction (make believe) and non-fiction (real) books.

Mr. Ramos and Ms. Howell

I hope everyone has had a great start to the school year. So far this school year in our class, we worked on football skills and basketball skills. The students have shown an interest in catching a ball and also shooting a ball into the hoop. Please make sure to hydrate your student when at home with lots of water while they're playing. Thanks in advance.

Mrs. Millins

Hello, I am Mrs. Millens, the school behavior specialist. I am present in most classrooms on a daily basis. My goal is to help motivate positive behavior. I distribute paws to the teachers and I run the school store. There are lots of neat incentives for students to work for. I am excited to reward all the great positive behaviors that I see on a daily basis!

Behavior Specialist

According to Florida Statute 1012.42, we must notify parents of students who are being taught by out-of-field teachers. A teacher is out-of-field until the coverage/endorsement for a class that he or she is teaching is issued by the state of Florida. In addition, the certification and/or endorsement must appear on his or her teacher certificate. Individuals who are teaching out-of-field are certified in a least one area and are qualified to teach, but are required to take additional course work or testing to add a coverage/endorsement to their certificate. Please contact the school, 239.337.3511, if you need further clarification.

The following teachers have agreed to teach out-of-field while completing course work and/or testing.

Out of Field and Not Highly Qualified (NHQ) Lorna Baez Hernandez—
ESOL (Endorsement), Essie Barns—ESOL (Endorsement),

Michele Batista—Elementary Education K-6 & ESOL (Endorsement),
David Bechler—ESOL (Endorsement), Ty Carr—ESE K-12

Roderick Eady—ESOL (Endorsement), Gloria Fisher—ESOL

(Endorsement), LaToya Gilmore—ESOL (Endorsement), Eric Murph—
Elementary Education k-6, ESOL (Endorsement), & ESE K-12, Elyse Perl—
ESOL (Endorsement), Lisa Rosier—ESE K-12, Bethy Senat—ESOL

(Endorsement), Karen Strykiewicz—ESOL (Endorsement), Wendy Wadley—ESOL (Endorsement), and Kevin Weigand—ESOL (Endorsement)
